

Flip, Slide or Turn?

You will need:

- Pattern blocks
- A4 paper and pencils
- centicubes (two different colours)
- a gameboard

Aim:

- To identify the movement of a shape.

Player 1 Score Grid

flip	slide	turn
slide	slide	flip
turn	turn	flip

Player 2 Score Grid

flip	slide	turn
slide	slide	flip
turn	turn	flip

How to Play

A game for pairs

- Each player chooses a Score Grid.
- Each player chooses a Pattern block shape and traces around it.
- While *Player 2* turns away, *Player 1* **flips**, **slides** or **turns** his or her shape and traces again.
- *Player 2* now tries to identify the movement of the traced shape. If he or she identifies the movement correctly, the player can put a centicube on the matching description on his or her Score Grid.
- The game is over when a player has six centicubes on his or her Score Grid.
